

Snowflake Top Note Treat
This is a beautiful treat that holds candy inside.
Design and directions by Sandy Hancock

Front

Back

1. Cut four Midnight Muse and four white **Top Note** pieces.
2. Cut two of the blue pieces in half in one direction and two in half in the opposite direction.

2. Run all four white pieces through the **Northern Flurry Embossing Folder**.
3. Cut 5 1/2" of the Midnight Muse Satin Ribbon. Put adhesive on the back of the ribbon and add it to the white c/s that you want to be the front piece.
4. Add the two long blue pieces to the back of the front. The picture on the right is the view from the front at this point.

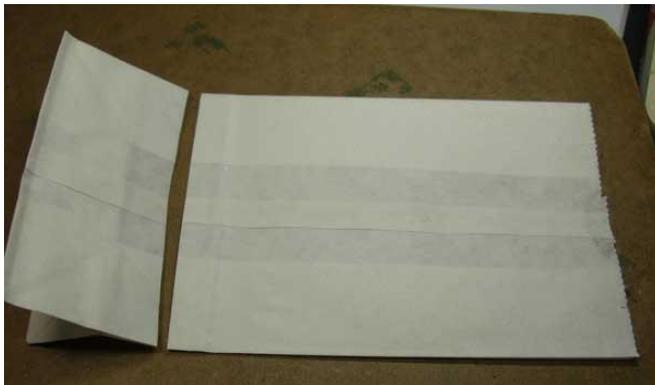

5. Add the two end blue pieces to each end. Then add the a second white piece to cover up the blue pieces on the back.

6. Make a second one of these pieces.

7. Cut off 2" of an 8"x 4" white sack.

8. Refold the white sack closed and add sticky strip to one side.

9. Pull off the Sticky Strip and add to the bottom of one of the Top Note pieces.

10. Add Sticky Strip to the other side of the white sack and add the second side of the Top Note cards.

11. Stamp the next to the largest snowflake from **Festive Flurry in Midnight Muse**.
12. Cut it out with the **Festive Flurry Framelits**.
13. Add the snowflake to the front of the Top Note treat with dimensionals.
14. Add one of the largest rhinestones to the center.
15. Stamp "Just for you" from **Teeny Tiny Wishes** in Midnight Muse in the lower left corner.
- 16OPT: If you want a snowflake on the back to decorate it, I suggest that you use the smallest one. Stamp it in Midnight Muse and cut it out with the Festive Flurry Framelit. (Pic at top)
